

## 4 Channel Mobile DVR Model : VWC-MD-01-CH04SD2GW4G

| Channel                     | 4 Channel - 2G,3G,4G, Wifi & GPS Enabled     |
|-----------------------------|--|
| Main Processor              | Hi-Silicon/Embedded Processor                |
| Operating System            | Embedded LINUX                               |
| Video & Audio Compression   | H.264 for Video   G.726 for Audio            |
| Resolution/Effective Pixels | PAL/NTSC : 1280*720                          |
| Playback                    | 1 Channel                                    |
| Upgrade & Backup            | USB Disk/Wireless network                    |
| AV input                    | 4CH Aviation Interface                       |
| AV output                   | 1CH VGA & 1CH Aviation                       |
| Alarm Input                 | 4 Digital Inputs                             |
| Alarm output                | 1 Output                                     |
| HDD/SSD                     | Not Available                                |
| SD card                     | 2 SD Card upto 256GB each                    |
| USB interface               | 1 USB 2.0                                    |
| Ignition Input              | 1 ACC Signal                                 |
| HDD/SD Card lock            | Supported with Key                           |
| GPS                         | Support                                      |
| 3G/4G                       | Supports 4G, 3G & 2G                         |
| WIFI                        | Support                                      |
| G-SENSOR                    | Supported                                    |
| Dimension                   | 142*165*45mm                                 |
| Power Input & Output        | 9~36V DC   12V/300mA                         |
| Power consumption           | Max Consumption 18W @ 12 / 1.5A; 24V / 0.75A |
| Working temperature         | Temperature -20°C to 70°C                    |
